

## Multi-Function Leak Tester

### Features

Small physical size( 6" X 7" X 9")  
Less than 1 CC of internal test volume

Graphical Touch screen interface  
Multichannel capability

Available fixture control valves

100 Stored Programs

Multi-Tester capability

Serial data output  
Ethernet data interface

20 + years of leak test experience  
Large Color Touch Screen

Enhanced Stability Algorithm (ESA)  
Electronic Regulator

### Benefits

Less bench space required

Ability to find smaller leaks, industry leading sensitivity.

Intuitive programming and test interpretation  
Ability to test up to 4 parts at the same time to increase station throughput.

Ability to control fixtures without external controller

Retain programs for multiple parts without the need to reprogram.

Perform multiple test types using the same tester.

Capture test results for storage to a computer  
Capture test results and ability for bi directional interface. Control and data acquisition.

Proven techniques and ability.  
Intuitive programming screens  
Multi Channel Graphing  
Pass/ Fail indication for each channel  
Higher contrast and improved viewing angles.

Improved Gage R&R results  
Multiple test pressures in one tester with no user intervention required.
